

COSTEA2 RESTITUTION SEMINAR

NOVEMBER 21ST-25TH 2022, AGROPOLIS (MONTPELLIER)

THE OBJECTIVES :

*BRINGING TOGETHER THE ACTORS
WHO CONTRIBUTED TO
THE ACTIVITIES CARRIED OUT*

*PRESENTING AND PROMOTING
THE RESULTS OF THE STUDIES*

*BUILDING TOGETHER
THE PROJECT PERSPECTIVES*

PROVISIONAL PROGRAM

08/23/2022 Version

For further information contact : vittoria.milano@inrae.fr

Project owner :

With the support of :

Monday november 21st 2022

Opening of the seminar

- 9:00 - 10:00 a.m.** ● Welcome of participants
- 10:00 - 12:30 a.m.** ● Plenary meeting - Opening of the seminar 
- 10:00 - 10:30 a.m.** ● Welcoming words AFD, AFEID, COSTEA
- 10:30 - 10:40 a.m.** ● Explanation of the seminar proceedings
- 10:40 - 11:10 a.m.** ● Keynote and COSTEA presentation
- 11:10 - 12:30 a.m.** ● **Round Table** 
- Contextualization of the COSTEA device in the framework of the four challenges of irrigated agriculture :*
- 1) To ensure the socio-economic development of the territories*
 - 2) To identify and analyze technical, social and institutional innovations*
 - 3) To increase resilience to climate risks*
 - 4) To promote environmental sustainability*
- 12:30 - 2:00 p.m.** ● Lunch break

Hybrid format with live streaming

*

All workshops require attendance

Monday november 21st 2022

Parallel sessions

2:00 - 4:00 p.m. ● Participatory workshops *

1. The climatic impact of the irrigated agriculture

*Comparative analysis of LCA and Carbon Footprint approaches of rice projects
Progress of Next and Exact tools
Restitution of the climate change study carried out by AFD/COSTEA
Contribution of the irrigated sector to the country trajectories : monitoring and organization, additional study needs*

2. Territorial Approches

Finalization of the Policy Paper

3. Economic Analysis of irrigation projets

*Finalization of the COSTEA Economic Guide, taking into account feedback on the first edition
Finalization of the paper "Question de développement"*

4:00 - 4:30 p.m. ● Coffee break : Innovation presentation

The Khettara solar : Introduction of collective solar pumping in the ancestral system of groundwater mobilization.

4:30 - 6:00 p.m. ● Participatory workshops *

1. The climatic impact of the irrigated agriculture

To go further in the Life Cycle Assessment and Carbon Footprint approaches

2. Territorial Approches

*Finalization of the Policy Paper
Discussion of the special issue "Cahier de l'Agriculture"*

4. Groundwater management

Valorization of 2 video productions and forward thinking

5. Innovation of Future

*Work restitution and forward thinking
Interest in the tool appropriation for WAIDMA / OMVA
Performing tool diagnostics and limitations*

COSTEA
ENSEMBLE POUR RELEVER LES DÉFIS
DE L'AGRICULTURE IRRIGUÉE

Tuesday november 22nd 2022

Parallel Sessions

West African Irrigation Development and Management Agencies - WAIDMA - Reuse of treated wastewater - REUSE -

9:00 10:30 a.m.

Introductory session WAIDMA

Worksite restitution :

Transferring managment to Irrigators and

Summary note

Value chain organization and Summary note

Land tenure and Summary note

Introductory session REUSE

Worksite restitution :

Algeria, Bolivia, Morocco and Palestina

10:30 11:00 a.m.

Coffee break : Innovation presentation

Solar pumping for small-scale farmers

11:00 12:30 a.m.

Introductory session WAIDMA

Worksite restitution :

Managment of project ownership

and Summary note

Round Table

Introductory session REUSE

Worksite restituion :

Senegal and Tunisia

Summary note

Ruond Table

12:30 2h00 p.m.

Lunch break

COSTEA

ENSEMBLE POUR RELEVER LES DÉFIS
DE L'AGRICULTURE IRRIGUÉE

Tuesday november 22nd 2022

Parallel Sessions

West African Irrigation Development and Management Agencies - WAIDMA - Reuse of treated wastewater - REUSE -

2:00 4:00 p.m.

Participatory workshops *

Participatory workshop *

1. Roadmap definition

Appropriation of worksite results by WAIDMA

REUSE

2. Forward thinking :

What does the network look like in 2030 ?

Institutionalization, financing, scope,
partnership with Insipre and ICID

4:00 4:30 p.m.

Coffee break : Innovation presentation

*The collective laundries as a means
of fighting against agricultural water pollution
and creation of an additional water source
in the rural oasis environment :
the case of the Tabesbaste laundry*

4:30 6:00 p.m.

WAIDMA Conclusions

REUSE Conclusions

Restitution of the thematic workshops
European Commission Survey of
the Joint Research Center

Launch of a REUSE collective work

Wednesday november 23rd 2022

Parallel Sessions

Agroecological transitions in irrigated systems and services to irrigators Irrigation and Land tenure

9:00 Introductory session
Agroecological transitions and
Services to Irrigators

Worksite Restitution :
Algeria, Cambodia and Senegal

10:30 a.m.

Introductory session
Irrigation and Land Tenure

Introductory remarks CTFD
Summary note
Worksite Teasers
Explanation of the day proceedings

10:30

11:00 a.m.

Coffee break : Innovation presentation

*Introduction of prepaid meters and smart cards
for billing water services in the irrigated perimeters*

11:00 Introductory session
Agroecological transitions and
Services to Irrigators

Summary note
Worksite restitution :
Tunisia and Cambodia
Summary note
Table Ronde

12:30 a.m.

Participatory parallel sessions *

1. Round Table / World Café
South-East Asia restitution

2. Round Table / World Café
Western Africa restitution

3. Round Table / World Café
Maghreb restitution

12:30

2:00 p.m.

Lunch break

COSTEA
ENSEMBLE POUR RELEVER LES DÉFIS
DE L'AGRICULTURE IRRIGUÉE

Wednesday november 23rd 2022

Parallel Sessions

Agroecological transitions in irrigated systems and services to irrigators Irrigation and Land tenure

2:00 4:00 p.m.

Participatory workshops *

1. Forward thinking :

Configuration of an irrigated perimeter
in 2030 allowing the implementation
of agroecological practices :
infrastructure unlocking

2. Services to Irrigators

Thematic Round Tables *

1. Topic

2. Topic

3. Topic

Crossed restitution of the key messages
by geographical and thematic approaches

4:00 4:30 p.m.

Coffee break : Innovation presentation

*Method of storing rainwater and irrigation water
to mitigate the mosquitoes' spread*

4:30 6:00 p.m.

Participatory workshop*

COSTEA Contribution
to the Agroecology memento

Irrigation and Land Tenure
Conclusions

Round Table

For information, the ROA-SAGI Steering Committee will be held
from 2:00 to 4:00 p.m. in parallel with the scheduled participatory sessions

Gala dinner

Thursday november 24th 2022

Parallel sessions

Developing and managing floodplains in a context of global change

Development and management of valley bottoms and small flood plains in West Africa

Networking time

Friday november 25th 2022

Closing of the seminar
